Utah State University (USU), Logan, UT

Relevant Animal Science Experience

Milker, Big Z Holsteins, Nibley, UT

Jan 2019 - Present

- Gathered +200 animals into barn holding pen, brought 6-12 cows in to barn, cleaned teats and attached milking units while simultaneously listening to milking machine for possible malfunctions
- Observed animals for signs of mastitis or bloody quarters, placed band around leg of affected cows and kept affected cattle's milk separate to help maintain proper SCC
- Watched cows for other health distresses and reported to superior for proper treatment and assistance
- Checked on pregnant cows for indications of calving, isolated dam and newborn after parturition to milk the mother and used gathered colostrum to feed calf to increase calf health
- Cleaned milking parlor and equipment to uphold cleanliness standards

Undergraduate Research Intern, USU Extension, Logan, UT

May 2018 - Jan 2019

- Purified and quantified RNA samples from goat cardiac tissue paying attention to detail to eliminate contaminants according to RNA purifying protocol
- Stained 100+ cardiac histology slides using immunohistochemistry and assessed slides for correct staining via microscope
- Measured cardiac muscle (morphometry) using an Olympus 8x 43 microscope camera with CellSens digital imaging software
- Entered data into Excel with high attention to detail to ensure proper organization and planning
- Analyzed and presented morphometry data at research seminar using a visually engaging poster

Animal Shelter Volunteer, Logan Animal Shelter, Logan, UT

September 2017 – November 2018

- Exercised dogs and cats for a total of 50+ hours in order to maintain health/activity
- Maintained clean environment for animals including cleaning and organizing
- Observed animal health and reported issues to supervisor
